

PRESS RELEASE

# IDG4NYC

## INDEPENDENT DRAWING GIG 4 NEW YORK

OCTOBER 17-21 OPENING PARTY FRIDAY, OCTOBER 17, 6-10 PM

**The Independent Drawing Gig (IDG)** is an international art crossover project initiated by Linas Jablonskis in Vilnius, Lithuania in 2005. A hybrid of live music and drawing, the exhibition emphasizes the collision of the underground music scene with the world of independent art, a world in which drawing plays a particularly important role. To quote Jablonskis, “**IDG** is about experience and energy, independent spirit and critical value.”

The first edition of **IDG** took place in Vilnius in 2005, with subsequent editions being hosted in Skopje (Macedonia) by The Museum of Contemporary Art in 2006 and in The Hague (Netherlands) as a part of the citywide Ground 2 Art Festival in 2007. The fourth edition (to be held over the course of a week in October 2008) will be staged in multiple cities around the world in various spaces, ranging from galleries to private spaces of previous participants of IDG. **IDG4** will also be the first to be streamed live on the IDG website. This will allow the diverse groups participating to connect and interact with each other.
